Board Member Joseph Callaghan arrived at 7:20 p.m.

Superintendent Updates:

Interim Superintendent Macaluso reported that students grades 8-11 would be voting on Friday, June 12, 2009 for the 2009-2010 School Year student Ex-Officio Board of Education member. Mr. Macaluso explained announcements were made for interested students to submit an essay stating their reasons why they would like to serve as the student representative along with a letter of reference from a staff member; their academic transcript; an anecdotal disciplinary report and the candidates must also attend a Board of Education meeting. Mr. Macaluso stated he would read the students essays over the public address system for all of the students to hear and then students will vote.

Interim Superintendent Macaluso stated the Board of Education members had received self-evaluation forms to be completed for the 2008-2009 school year.

Mr. Macaluso commented that the Phase I Committee would present ideas for the use of the contingency money from the Phase I Construction project.

Board Member Joseph Callaghan suggested the installation of a small boiler to be used to heat the swimming pool rather than the use of the main boiler as is currently done, adding this would save on district costs to heat the pool.

The Facilities Committee Update was discussed by Board of Education members. Suggestions included Roof repairs; Milk Coolers for the Elementary and High Schools; an alternate heater for the swimming pool. Estimates for the cost of these updates will be obtained by the committee and they will bring their final recommendations to the Board of Education.

Board President Keith Swank thanked Board Member Michael Boggs for his work on the report.

Interim Superintendent Macaluso commented on the issue of hot water in the girls locker rooms, stating the hot water had been turned off as it was too hot and there was a risk to the students, adding the locker rooms are being fitted with new auto-faucets to remedy the problem.

Board Member Judy DiRaddo listed some issues the committee felt should be addressed: It audit; Plastic bucket hanging from the ceiling in the gym; Continued asbestos abatement work; Maintaining warranty information in a central location, for ease of access; Clean out basement area and organize for better utilization of space; Remove Port-a-potties and open the Elementary bathroom which has outdoor access; Clean out greenhouse for student use; Clean up pool area and locker rooms & Physical Education offices; Update handicapped accessible bathroom facilities to allow for more privacy.

Interim Superintendent Macaluso commented that with the heavy construction occurring in the district during the last two years much of the work normally done by the maintenance staff in the summer has been put on hold because of additional demands of the construction project, adding construction crews have also been using the basement as a storage area for their equipment. Mr. Macaluso added the physical education teachers are addressing the pool area, offices and locker rooms and maintenance has ordered a stainless steel mounting to be used with the handicapped facilities.

Board Member Mona Sage-Cardinale asked if the school would be holding an auction this year for items no longer used by the district. Interim Superintendent Macaluso stated yes they would be having either a sale or an auction this year. Ms. Sage-Cardinale suggested sending a list of the items to all staff first, to see if anything might be used by the staff before it goes to the sale.

Board President Keith Swank thanked the Facilities Committee for their work stating he felt the school was moving in a positive direction.

Facilities Committee member Joseph Callaghan thanked Chemistry teacher Dan Robinson for maintaining such an immaculate classroom.

Public Comment:

Guest Howie Fleischman commented on the possibility of moving forward with Phase II construction project, as some of the work being proposed is just maintaining the facilities but the issues would be corrected with a Phase II project, adding he felt it should be up to the community to decide of they would support Phase II.

Board President Keith Swank stated there are strong proponents for Phase II.

Board Member Judy DiRaddo asked how a Phase II project should be started.

Discussion followed as to the process for developing a Phase II Construction Project. Board Members agreed to discuss the matter and develop a preliminary timeline at the Organizational Meeting on June 15, 2009.

Interim Superintendent Macaluso presented information pertaining to the process for the selection of a student representative to the board. Mr. Macaluso stated the process had been slightly changed this year, adding rather than having students nominated by class advisors and then voted on by the students, interested students applied for the position and will be voted on by the students. Student Board Member Tess Crawford stated she is excited about the change and is happy it has been changed to a more democratic process.
