Superintendent Update

Superintendent Kevin Swartz provide a couple of updates. He recently sent out an email/survey to the current juniors (Class of 2026) about Student Board Rep interest for future years. He also hopes to get into some classes to discuss the opportunity with students with Mrs. Green.

Mr. Swartz also shared that it was great to see the kids proud of their decisions on Decision day. The pictures out front, breakfast and to see that they had pride about their decisions and had passion to talk about it. There was a respect among all the kids no matter what pathway they have chosen after graduation.

Mr. Swartz stated that he had a great meeting with the administrators and Matt Mahoney regarding summer work. Matt Mahoney will be speaking in June with more detail about the summer work. Mr. Swartz also made note that Governor Hochul has said that her cell phone legislation will be coming forth, but we still don't know what is in the legislation. Therefore, we are still in a holding pattern.

Jr./Sr. High School Principal

Mrs. Nicole Green noted how quickly time is going by as we gear up for the end of year celebrations. It's wonderful to be in the building to see the kids and the class of 2025 and connect with them in the hallways. It's easy to get caught up in the day to day but slowing down to appreciate all the interactions you have. She also noted that at this time of year there is testing: NYS 3-8, AP Testing, and Regents. The 3E Day was absolutely fantastic. It's important to hold on to those moments and celebrate.

SUBJECT: SUICIDE STUDENT MENTAL HEALTH AWARENESS

~~According to national statistics, suicide is the third leading cause of death among young people. It is the policy of the Board to enact clear guidelines for prevention, intervention and post-intervention of suicide, reflecting the District's concern for this serious mental health issue.~~

~~The Board recognizes the need for suicide prevention and will instruct the Superintendent to establish a District crisis intervention team whose responsibility will be to develop a suicide response plan. This plan will be integrated into the existing school safety plan. The plan will include education and awareness of risk factors for youth suicide, procedures for intervening if a student exhibits risk factors, including referral services, and a post-intervention plan to help the school and community cope with the aftermath of such a tragic event should it occur.~~

~~Suicide prevention will be incorporated into the curriculum to educate students. This will be done in a manner so as not to sensationalize the matter, but to provide students with information and resources on this important mental health issue. The District will also foster interagency cooperation that will enable staff to identify and access appropriate community resources to aid students in times of crisis.~~

~~The administration is responsible for informing staff of regulations and procedures of suicide prevention, intervention, and post-intervention that have been developed by the District. The District will actively respond to any situation where a student verbally or behaviorally indicates intent to attempt suicide or to do physical harm to himself/herself. Staff training and professional development on suicide and crisis intervention will be made available.~~

~~The factors contributing to student mental health are complex and multi-faceted. School may be one place where individuals at risk may be recognized and supported. The District is committed to the education and awareness of risk factors and procedures for intervening if a student exhibits risk factors, including referral services.~~

SUBJECT: BULLYING: PEER ABUSE IN THE SCHOOLS

The Board of Education is committed to providing a safe and productive learning environment within its schools. Bullying of a person by any other person is strictly prohibited on school property, in school buildings, on school buses, and at school sponsored events and/or activities whether occurring on or off campus. The Board of Education shall require the prohibition of bullying - along with the range of possible intervention activities and/or sanctions for such misconduct - to be included in the *District Code of Conduct* for all grade levels.

For purposes of this policy, the term "bullying" among children is defined, in general, as: "a variety of negative acts carried out repeatedly over time. It involves a real or perceived imbalance of power, with a more powerful child or group attacking those who are less powerful." Bullying can take three forms:

- a) Physical (including, but not limited to, hitting, kicking, spitting, pushing, taking personal belongings);
- b) Verbal (including, but not limited to, taunting, malicious teasing, name calling, making threats); and
- c) Psychological (including, but not limited to, spreading rumors; manipulating social relationships; or engaging in social exclusion, extortion, or intimidation).

Although this Policy focuses on the bullying of a student by another student, it should be noted that bullying against any individual is strictly prohibited. This includes bullying of staff members against students, students against staff members, staff members against other staff members, and bullying by or against any parents, persons in parental relation, volunteers, visitors or vendors who may be on school property or at school sponsored events as defined above.

Engages in Cyberbullying Behavior

As with other forms of bullying, cyberbullying is an attempt to display power and control over someone perceived as weaker. Cyberbullying involving District students may occur both on campus and off school grounds and may involve student use of the District Internet system or student use of personal digital devices while at school, such as cell phones, digital cameras, and personal computers to engage in bullying.

Cyberbullying includes, but is not limited to, the following misuses of technology: harassing, teasing, intimidating, threatening, or terrorizing another student or staff member by way of any technological tool, such as sending or posting inappropriate or derogatory e-mail messages, instant messages, text messages, digital pictures or images, or Web site postings (including blogs).

SUBJECT: BULLYING: PEER ABUSE IN THE SCHOOLS (Cont'd)

Cyberbullying has the effect of:

- a) Physically, emotionally or mentally harming a student;
- b) Placing a student in reasonable fear of physical, emotional or mental harm;
- c) Placing a student in reasonable fear of damage to or loss of personal property; and
- d) Creating an intimidating or hostile environment that substantially interferes with a student's educational opportunities.

Also, cyberbullying that occurs off-campus, that causes or threatens to cause a material or substantial disruption in the school, could allow school officials to apply the "**Tinker** standard" where a student's off-campus "speech" may be subject to formal discipline by school officials when it is determined that the off-campus speech did cause a substantial disruption or threat thereof within the school setting [*Tinker v. Des Moines Indep. Sch. Dist.* 393 U.S. 503 (1969)]. Such conduct could also be subject to appropriate disciplinary action in accordance with the *District Code of conduct* and possible referral to local law enforcement authorities.

Reports of Allegations of Bullying/Cyberbullying Behavior

Any person who believes that he/she is being subjected to bullying/cyberbullying behavior, as well as any other person who has knowledge of or witnesses any possible occurrence of bullying, shall report the bullying to any staff member or the Building Principal. ~~The staff member/Building Principal to whom the report is made (or the staff member/Building Principal who witnesses bullying behavior) shall promptly, thoroughly and equitably investigate the complaint.~~ The administration will take all reasonable steps to investigate and determine facts related to the reported issue while ensuring adherence to SED law regarding student rights. Given the sophistication of social media/technology, administration will work to partner with families to prevent cyberbullying as it is recognized that these behaviors often occur outside of the school day and take appropriate reasonable action to include, as necessary, referral to the next level of supervisory authority and/or other official designated by the District to investigate allegations of bullying. Investigation of allegations of bullying shall follow the procedures utilized for complaints of harassment within the School District. Allegations of bullying shall be promptly and equitably investigated and will be treated as confidential and private to the extent possible within legal constraints.

Prevention and Intervention

Personnel at all levels are responsible for taking corrective action to prevent bullying behavior of which they have been made aware at School District sites or activities and/or reporting such behavior to their immediate supervisor. Further, staff training shall be provided to raise awareness of the problem of bullying within the schools and to facilitate staff identification of and response to such bullying behavior.

Prevention and intervention techniques within the District to prevent against bullying behavior

and to support and protect victims shall include building-level and classroom-level strategies and activities as determined by administration. Individual intervention will be provided by appropriate staff members to bullies, victims and/or parents to help ensure that the bullying stops.

Prohibition of Retaliatory Behavior (Commonly Known as “Whistle-Blower” Protection)

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participate in the investigation of allegations of bullying/cyberbullying. Follow-up inquiries and/or appropriate monitoring of the alleged bully and victim shall be made to ensure that bullying/cyberbullying behavior has not resumed and that all those involved in the investigation of allegations of bullying have not suffered retaliation.

SUBJECT: HAZING OF STUDENTS

The Board of Education is committed to providing a safe, productive and positive learning environment within its schools. Hazing activities are demeaning and abusive behaviors that harm victims, are inconsistent with the educational goals of the District, and may constitute criminal conduct. Consequently, the hazing of a students by other students or groups of students is strictly prohibited on school property; in school buildings; on school buses; by school sponsored groups, clubs or teams; and at school sponsored events and/or activities whether occurring on or off-campus. Hazing is prohibited regardless of the victim's apparent willingness to participate in the activity.

For purposes of this policy, the term "*hazing*" is defined as any humiliating or dangerous activity expected of a student to join a group, regardless of their willingness to participate. Acts constituting hazing may range in severity from teasing or embarrassing a student to various forms of physical, emotional, and/or sexual abuse. Hazing behaviors include, but are not limited to:

- 1) Humiliation: socially offensive, isolating or uncooperative behaviors.
- 2) Substance abuse: abuse of tobacco, alcohol or illegal drugs.
- 3) Other dangerous actions: hurtful, aggressive, destructive, and disruptive behaviors.

Hazing is a form of harassment and bullying, as those terms are defined for the purposes of Policy #7560 – Dignity for All Students, and may constitute discrimination. As such, the District's response to reports of hazing will be governed by applicable law, the District's *Code of Conduct*, and Policy #7560 and its implementing regulations. In the event allegations involve hazing based on a student's race, color, religion, national origin, sex, sexual orientation, or disability, the District may utilize the procedures set forth in Policy #3420 – Non-Discrimination and Anti-Harassment in the School District, and its implementing regulations.

SUBJECT: SUPERVISION OF STUDENTS

Students working on any activity must be supervised by the teacher or staff member in charge of the activity. This applies to all in school and co-curricular activities as well as sports activities and events. Permission to hold practices or meetings must not be granted unless a teacher or staff member is definitely in charge.

- a) District personnel will be fully responsible for the supervision of all students. ~~in either their class or their after school activities.~~
- ~~b) Coaches will maintain supervision over the dressing rooms by personally being present during the dressing periods. Coaches are responsible for the supervision of their athletes at the end of practice. This may entail bus duty, or making sure students have transportation home.~~
- e)b) Teachers and/or assigned school personnel in the elementary grades will be responsible for the playground supervision of all the children under their jurisdiction during the recess periods and before the regular afternoon sessions. The Principal will distribute the responsibility so that the playground situation will be properly controlled.
- ~~d) Students are not to be sent on any type of errand away from the building.~~
- ~~e) All teachers and staff working directly with students who have a history of wandering or elopement (i.e., the act of a student who leaves or runs away from the premises without permission or notification, often referring to students who have autism spectrum disorder or diminished cognitive impairment) will be made aware of these concerns and of any existing behavioral intervention plan formulated to prevent or respond to instances of wandering or elopement.~~

SUBJECT: SAFE PUBLIC SCHOOL CHOICE

Any District student who is a victim of a violent criminal offense that occurred on the grounds of the District elementary or secondary school that the student attends, will be allowed to attend a safe public school within the District to the extent required by the federal and state law and regulations.

In accordance with Commissioner's Regulations, "safe public school means a public school that has not been designated by the Commissioner of Education as a persistently dangerous elementary or secondary school."

Violent Criminal Offense

The Superintendent will determine if the student has been the victim of a "violent criminal offense." "Violent criminal offense" means a crime that:

- a) Involves infliction of a serious physical injury upon another as defined in New York State Penal Law; or
- b) A sex offense that involves forcible compulsion; or
- c) Any other offense defined in New York State Penal Law that involves the use or threatened use of a deadly weapon.

Serious Physical Injury

"Serious physical injury" means a physical injury which creates a substantial risk of death, or which causes death or serious and protracted disfigurement, protracted impairment of health, or protracted loss or impairment of the function of any bodily organ.

Deadly Weapon

"Deadly weapon" means any loaded weapon from which a shot, readily capable of producing death or other serious physical injury, may be discharged, or a switchblade knife, pilum ballistic knife, metal knuckle knife, dagger, billy, blackjack, plastic knuckles, or metal knuckles.

Determination Whether Student is a Victim

Procedures will be established for determination by the Superintendent of whether a student is a victim of a violent criminal offense that occurred on school grounds of the school the student attends. The Superintendent will, prior to making any determination, consult with any law enforcement agency investigating the alleged violent criminal offense and consider any reports or records provided by the agency. However, a criminal conviction is not required prior to the Superintendent's determination that a student has been a victim of a violent criminal offense.

(Continued)

SUBJECT: SAFE PUBLIC SCHOOL CHOICE (Cont'd.)

The Superintendent's determination may be appealed to the Board. However, this determination will not preclude any student disciplinary proceeding brought against the alleged victim or perpetrator of such violent criminal offense.

Notice to Parents/Persons in Parental Relation

The District will establish procedures for notification of parents of, or persons in parental relation to, students who are victims of violent criminal offenses of their right to transfer to a safe public school within the District and procedures for such transfer. Such notice will be, to the extent practicable, provided in the dominant language or mode of communication used by the parents or persons in parental relation to the student. The District will notify the parents of, or persons in parental relation to, the student within twenty-four (24) hours of the determination that the student has been the victim of a violent criminal offense on school grounds at the school he or she attends.

Written notice will be provided by personal delivery, express mail delivery, or equivalent means reasonably calculated to assure receipt of such notice within twenty-four (24) hours of the determination at the last known address or addresses of the parents or persons in parental relation to the student. Where possible, notification will also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents or persons in parental relation.

However, **such notification will not be required** where there are no other public schools within the District at the same grade level or a transfer to a safe public school within the School District is otherwise impossible. Similarly, procedures for such notification of parents or persons in parental relation to students who are victims of violent criminal offenses will not be required where the School District has only one public school within the District or only one public school at each grade level.

Designation of Safe Public School

It is the responsibility of the School District, based on objective criteria, to designate a safe public school or schools within the District to which students may transfer. However, the District is not required to designate a safe public school where there are no other public schools within the District at the same grade level or transfer to a safe public school within the District is otherwise impossible. Similarly, if the District has only one public school within the School System or only one public school at each grade level, the School District will not be required to designate a safe public school.

Any student who transfers to a safe public school, in accordance with the provisions of this policy and applicable law and regulation, will be enrolled in the classes and other activities of the public school to which such student transfers in the same manner as all other students at the public school. The receiving school will be identified by the District and must be at the same grade level as

the school from which the student is transferring. To the extent possible the School District will allow transferring students to transfer to a school that is making adequate yearly progress and has not been identified as requiring school improvement, corrective action, or restructuring. The District will provide transportation for any student permitted to transfer to the safe public school within the District designated by the School System within the transportation limits established pursuant to Education Law Sections 3635 and 4401(4). Any student who transfers to a safe public school will be permitted to remain in the safe public school until the student has completed the highest grade level in the school transferred to.

While the parents or persons in parental relation to the student must be offered the opportunity to transfer their child, they may elect to have the child remain at the school he or she currently attends.

From: Nicole Green
Jr/Sr High School Principal

Subject: Discard of table

I have received a request from Brianna Battin to discard a table. The details follow.

- There is a large green and white table in the Community Closet by the HS gym that belongs to NCS that was used for the score/clock table during modified basketball games when they were being held in the High School gym. The table has been broken for a year and can no longer be used.

I am recommending that the Naples Board of Education approve the discard.

Sincerely,

A handwritten signature in blue ink that reads 'Nicole Green'.
