Naples CSD Student Technology Responsible/Acceptable Use Policy Agreement

Supervision and monitoring:

School personnel monitor the use of devices and the Internet to ensure student safety. We reserve the right to examine, use, and disclose any data found on the District's information networks or devices in order to further the health, safety, discipline, or security of any student or other person, or to protect property. We may also use this information in disciplinary actions, and will furnish evidence of crime to law enforcement.

Opportunities for Instructional Use

Naples CSD makes every effort to select technology products that protect the confidentiality of students' personally identifiable information and avoid 3rd party promotional marketing material. In order for students to use some selected tools, it may be necessary for the District to provide basic information such as name or school email. Service providers communicate information about their collection, protection, use and disclosure of data through their own privacy policies. Please find a list of online educational providers and their contact information, at the following web address: <http://bit.ly/NCSProviders> This is a live document that will be updated periodically.

District Owned iPads and Chromebooks

Distribution/Collection

Devices will be distributed at the beginning of the school year and must be returned at the end of the school year. They may be collected during the year for maintenance and updates. If a student leaves NCS during the academic school year for any reason at all, the district-owned device must be returned to the school before departure.

District Owned Devices

iPads and Chromebooks are district owned devices and the contents on the iPad or Chromebook can be viewed at any time. The student should have NO expectation of privacy of materials found on a school supplied device or school supported email service.

Internet Connectivity

While at school, students will be accessing the Internet through the NCS network, which follows the required Children's Internet Protection Act (CIPA) regulations. When the device is out of school, it will access any available WiFi and follow the Internet controls associated with that network. We recommend that you talk to your children about the standards they should follow on the Internet just as you would on the use of all media information sources. We also recommend that student use of the Internet is monitored by an adult.
