**NAPLES CENTRAL SCHOOL**  
136 NORTH MAIN STREET  
NAPLES, NEW YORK 14512

**MEMORANDUM OF AGREEMENT**

THIS IS AN AGREEMENT entered into by and between NAPLES TEACHERS' ASSOCIATION (hereinafter sometimes referred to as "Association"), MATTHEW FRAHM, Superintendent of Schools (hereinafter sometimes referred to as the "Superintendent") and the NAPLES CENTRAL SCHOOL DISTRICT (hereinafter sometimes referred to as the "School District"), collectively referred to as the "parties".

WHEREAS, the parties have met to discuss Richard L. Cummings' retirement and Article V (Retirement Bonus) of their collective bargaining agreement; and

WHEREAS, the parties have reached an agreement to resolve this matter, were fully represented in such deliberations, and had all terms and conditions herein contained thoroughly explained and fully understand the meaning thereof; and

WHEREAS, each party hereto has freely consented to enter into and to be bound by this Agreement, with such consent not having been induced by fraud, duress, or any other undue influence; and

NOW, THEREFORE, in consideration of the mutual undertakings and covenants herein contained, the parties stipulate and agree as follows:

1. The parties acknowledge that Article V – Retirement Bonus of the collective bargaining agreement dated July 1, 2014 – June 30, 2018 between the District and the Association designates that a teacher retiring in the 2016-2017 school year with 20-25 years of teaching service to the district will receive a retirement bonus of \$20,808.00.
2. The parties also acknowledge that High School teacher Richard L. Cummings will have 18.5 years of service accrued at the end of the first semester of the 2016-2017 school year. Richard L. Cummings intended to work until June 30, 2018 when he accrued the 20 years of service required in order to be eligible to receive the retirement bonus for teachers with 20-25 years of teaching service as outlined in the collective bargaining agreement.
3. As a result of the extenuating circumstances presented by Richard L. Cummings regarding his physical and/or mental health and well-being, the commitment by both parties to ensure the best outcomes for students, as well as the cost savings realized by the District as a result of Mr. Cummings' early retirement from the District, the District and the Association have agreed to waive the requirement that Richard L. Cummings work through June 30, 2018 of the 2017-2018 school year to receive the retirement bonus of \$20,808 for teachers with 20-25 years of service.

4. The parties agree that Richard L. Cummings may submit an irrevocable letter of resignation for purposes of retirement effective January 27, 2017. If the letter is submitted, Mr. Cummings will retire effective January 27, 2017 and shall be entitled to receive all retirement benefits as outlined in the collective bargaining agreement, including but not limited to, the retirement bonus specified in Article V of the collective bargaining agreement for a retiree with 20-25 years of service to the district.
5. The parties further agree that the terms and conditions of this Memorandum of Agreement shall not be used to establish a practice, past practice or precedent in any proceeding or any matter whatsoever.
6. No provision or provisions of this Memorandum of Agreement may be added to, deleted or modified in any manner unless in writing, signed by all the parties hereto.

**IN WITNESS WHEREOF**, the parties have hereto set their hands and seals on the day and date written below:

FOR THE DISTRICT:

Matthew T. Frahm  
Superintendent of Schools  
Naples Central School District

Dated: 12/6/16

FOR THE ASSOCIATION

Andrew Scott Petrie  
President  
Naples Teachers' Association

Dated: 12/6/16

**SUBJECT: FACILITIES: INSPECTION, OPERATION AND MAINTENANCE****Operation and Maintenance**

The Board, through the Superintendent and his/her staff, has the responsibility of protecting the District's facilities through a systematic maintenance program. The program will include periodic preventive maintenance activities, long-range maintenance schedules and emergency repair procedures. The District will make reasonable attempts to ensure that all maintenance work will be carried out in the least intrusive manner.

**Construction and Remodeling of School Facilities**

The District will ensure all capital projects and maintenance comply with the requirements of the New York State Uniform Fire Prevention and Building Code, the Manual of Planning standards and the Commissioner's regulations. Relevant documentation regarding all new buildings must be formally submitted to the State Education Department no matter the size or cost. The SED Office of Facilities Planning has provided an Instructional Guide on its official website.

Plans and specifications for the erection, enlargement, repair or remodeling of facilities of the District will be submitted to the Commissioner consistent with applicable law.

Plans and specifications submitted to the Commissioner will bear the signature and seal of an architect or engineer licensed to practice in the State of New York. The architect or engineer who sealed the plans and specifications must also certify that the plans and specifications conform to the standards set forth in the State Uniform Fire Prevention and Building Code and the State Energy Conservation Construction Code.

For remodeling or construction projects the District shall assure compliance with the requirements of the State Uniform Fire Prevention and Building Code and Commissioner's Regulations. The District will also retain the services of an architect or engineer licensed to practice in New York State as required by law or regulation, or as necessary given the scope and cost of the project.

**Carbon Monoxide Detection Requirements**

All new and existing District buildings that have appliances, devices, or systems that may emit carbon monoxide, and all attached garages, must have a means to detect carbon monoxide. Buildings include school buildings, administrative buildings, bus maintenance facilities, concession stands, and field houses. Carbon monoxide may be produced by fuel-fired heating systems (boilers, HVAC units, and makeup air units), emergency or standby electric generation within a building, fuel-fired kitchen equipment (ranges, ovens, steamers, dishwashers, and makeup air units serving hoods), fuel-fired domestic hot water heaters, laboratory/shop equipment (gas outlets, torches, gas-fired kilns, and stationary or portable engines), maintenance and storage areas with fuel-fired equipment, and in garages.

(Continued)

**SUBJECT: FACILITIES: INSPECTION, OPERATION AND MAINTENANCE (Cont'd.)**

The District may use a self-contained carbon monoxide alarm, a carbon monoxide detection system, or both. The District will comply with all laws and regulations regarding alarms or detectors, including where they must be located, their power sources, and labeling requirements. The District should develop written standard operating procedures to follow when a carbon monoxide detector is activated.

**Inspections**

The District is mindful of the health and safety of its students, staff, and visitors and, as such, the District administration will cooperate with appropriate officials conducting health, fire, asbestos, bus, and boiler inspections. In addition, the administration will keep the Board informed of the results of these inspections in a timely fashion.

In accordance with the Asbestos Hazard Emergency Response Act (AHERA), the District will inform all employees and building occupants (or their legal guardians) at least once each school year about all asbestos inspections, response actions, post-response action activities, as well as triennial re-inspection activities and surveillance activities that are either planned or in progress. The District will provide yearly notification to parent, teacher, and employee organizations on the availability of the District's asbestos management plan and any asbestos-related actions taken or planned in the school.

The District will test potable water for lead contamination from all outlets as required by law. If an outlet exceeds the action level for lead content, the District will prohibit use of the outlet for drinking and cooking purposes, and it will remediate the outlet before allowing these uses. The District will make all required notifications and issue all mandated reports to the public, local health department, or the SED. For ten years following creation, the District will retain all records of test results, lead remediation plans, lead-free building determinations, and waiver requests. The District may seek a waiver from testing requirements from the local health department by demonstrating prior substantial compliance with testing requirements.

To help protect staff, students, and visitors from contracting Legionnaires' disease from Legionella bacteria, the District will register any cooling towers it owns with NYSED, providing the information in any form that the Department requires. The District will also adhere to the inspection, annual certification, and maintenance program and planning requirements mandated by NYSED. Further, the District will maintain records regarding all inspection results, corrective action, cleaning and disinfection, tests, and certifications for at least three years. The District will keep a copy of its required maintenance program and plan on the premises where the cooling tower is located.

**SUBJECT: FACILITIES: INSPECTION, OPERATION AND MAINTENANCE (Cont'd.)**  
**Comprehensive Public School Building Safety Program (Rescue)**

To ensure that all school facilities are properly maintained and preserved and provide suitable educational settings, the Board requires that all occupied school facilities which are owned, operated or leased by the District comply with the provisions of the Comprehensive Public School Building Safety Program, the Uniform Code of Public School Building Inspections, and the Safety Rating and Monitoring as prescribed in Commissioner's Regulations. For this reason, the District will develop a Comprehensive Public School Building Safety Program in accordance with Commissioner's Regulations.

The program will be reevaluated and made current at least annually, and shall include, at a minimum, the following:

- a) A five (5) year capital facilities plan which will include an appraisal of the following: the educational philosophy of the District, with resulting administrative organization and program requirements; present and projected student enrollments; space use and State-rated student capacity of existing facilities; the allocation of instructional space to meet the current and future education program and service needs, and to serve students with disabilities in settings with nondisabled peers; priority of need of maintenance, repair or modernization of existing facilities, including consideration of the obsolescence and retirement of certain facilities; and the provision of additional facilities.
- b) A District-wide building inventory, which will include information pertaining to each building including, but not limited to:
  1. Type of building, age of building, size of building;
  2. Rated capacity, current enrollment;
  3. List of energy sources and major systems (lighting, plumbing, electrical, heating); and
  4. Summary of triennial Asbestos Inspection reports.
- c) A building condition survey will be conducted for all occupied school buildings once every five (5) years by a team that includes at least one (1) licensed architect or engineer.
- d) A District-wide monitoring system which includes:
  1. Establishing a Health and Safety Committee;
  2. Development of detailed plans and a review process of all inspections;
  3. Procedures for a response in writing to all inquiries about building health and safety concerns, a copy of which will be sent to the District's Health and Safety Committee for oversight, and a copy kept on permanent file.

(Continued)

**SUBJECT: FACILITIES: INSPECTION, OPERATION AND MAINTENANCE (Cont'd.)**

- e) Procedures to ensure the safety of the building occupants while a construction/renovation project is taking place. These procedures will include:
  - 1. Notification to parents, staff and the community at least two (2) months in advance of a construction project of ten thousand dollars (\$10,000) or more to be conducted in a school building while the building is occupied; provided, however, that in the case of emergency construction projects, notice will be provided as far in advance of the start of construction as is practicable;
  - 2. A plan to ensure that all contractors comply with all health and safety issues and regulations, and wear photo identification badges;
  - 3. An opportunity for the District's Health and Safety Committee to conduct a walk-through inspection of newly renovated or constructed areas to confirm that the area is ready to be reopened for use; and
  - 4. An emergency plan which will address potential concerns with the capital project including, but not limited to, evacuation procedures, fire drills, and structural failures.

## Personnel

**SUBJECT: TEMPORARY PERSONNEL**

The District's needs sometimes require temporary appointments. The terms of these appointments shall be defined by the Board on a case-by-case basis.

**Student Teachers**

The District shall cooperate with teacher training institutions in the placement of student teachers to provide beginning teachers with the best possible student teaching experience.

Schools are required to allow student teachers to videotape themselves providing instruction in a classroom to meet part of their instruction assessment requirements for teaching certification. The video must remain confidential, is a confidential record of the New York State Education Department (SED), and is not subject to viewing or disclosure to an individual or entity other than the student teacher applicant and relevant SED personnel.

Student teachers shall be protected from liability for negligence or other acts resulting in accidental injury to any person by the District, as provided by law.

Student Teachers shall not be allowed to substitute teach until they have completed all requirements for student teaching.

**Substitute Teachers**

A fully qualified substitute teacher will be employed, whenever possible, by the Superintendent in the absence of a regular teacher. It is recognized that fully certified persons will not always be available for employment as substitute teachers.

A teacher substitute is required to have at least two (2) years of higher education. Exceptions must be approved by the school superintendent.

**Eligibility for Service**

Per Commissioner's Regulations Section 80-5.4, there are three (3) categories of substitutes:

- a) Substitutes with valid teaching certificates or certificates of qualification may serve in any capacity, for any number of days. If employed on more than an "itinerant" basis, these substitutes will be employed in their certification area.

(Continued)

## Personnel

**SUBJECT: TEMPORARY PERSONNEL (Cont'd)**

- b) Substitutes without a valid certificate, but who are completing collegiate study towards certification at the rate of not less than six (6) semester hours per year may serve in any capacity, for any number of days, in any number of school districts. If employed on more than an "itinerant" basis, these substitutes will be employed in their anticipated certification area.
- c) Substitutes without a valid certificate and who are not working towards certification may serve for no more than forty (40) days per school year. In extreme circumstances – where there is a urgent need for a substitute teacher – however, the District may employ this substitute teacher beyond the 40-day limit, for up to an additional fifty (50) days (90 days total in a school year), if the Superintendent certifies that the District conducted a good-faith recruitment search and there are no certified teachers available who can perform the duties of the position.

The District may hire this substitute teacher beyond the 90 days only if the Superintendent attests that the District conducted a good-faith recruitment search, but there are still no certified teachers available who can perform the duties of the position and that the District needs a particular substitute teacher to work with a specific class or group of students until the end of the school year.

The Board will annually establish the ordinary rate for per diem substitute teachers.

Reporting

The Superintendent will submit an annual report to the Commissioner concerning the employment of all uncertified teachers. The report will include:

- a) The number of substitute teachers authorized to be employed beyond the 40-day limit.
- b) The number of substitute teachers authorized to be employed beyond the 90-day limit.
- c) The required good-faith recruitment certifications for all teachers employed beyond the 40-day and 90-day limits.

The placement of a person on the approved substitute list requires Board of Education approval.

Substitute Tutor: \$30.00/hour

**SUBJECT: FAMILY AND MEDICAL LEAVE ACT**

The Board of Education, in accordance with the Family and Medical Leave Act of 1993 (FMLA), gives "eligible" employees of the District the right to take unpaid leave for a period of up to twelve (12) work weeks in a twelve-month period as determined by the District. The District will compute the twelve-month period according to the following time frame: a "rolling" twelve-month period will be used that is measured backward from the date an employee uses any FMLA leave.

Employees are "eligible" if they are employed by the District in a full or part-time capacity as a 10-month or 12-month regular employee, for at least twelve (12) months prior to requesting use of FMLA.

Qualified employees may be granted leave for one (1) or more of the following reasons:

- a) The birth of a child and care for the infant;
- b) Adoption of a child and care for the infant;
- c) The placement with the employee of a child in foster care;
- d) To care for a spouse, child or parent who has a serious health condition as defined by the FMLA;
- e) A serious health condition of the employee, as defined by the FMLA, that prevents the employee from performing his/her job.
- f) Eligible employees with a spouse, son, daughter, or parent on covered active duty status in the Armed Forces (including National Guard or Reserves) may use their 12-week leave entitlement to address certain qualifying exigencies. Qualifying exigencies may include attending certain military events, arranging for alternative childcare, addressing certain financial and legal arrangements, attending certain counseling sessions, and attending post-deployment reintegration briefings. FMLA also includes a special leave entitlement that permits eligible employees to take up to twenty-six (26) weeks of leave to care for a family member who is a covered service member during a single 12-month period.

At the Board of Education's or employee's option, certain types of paid leave may be substituted for unpaid leave, as per contractual agreement which states all leaves run concurrently with leave provided by the Family and Medical Leave Act.

An employee on FMLA leave is also entitled to have health benefits maintained while on leave. If an employee was paying all or part of the premium payments prior to leave, the employee will continue to pay his/her share during the leave period.

In most instances, an employee has a right to return to the same position or an equivalent position with equivalent pay, benefits and working conditions at the conclusion of the leave.

(Continued)

## Personnel

**SUBJECT: FAMILY AND MEDICAL LEAVE ACT (Cont'd.)**

The Board of Education has a right to thirty (30) days advance notice from the employee where practicable. In instances where thirty days advance notice is not given, the following will apply: After fifteen (15) days absence, paid or unpaid, due to a single illness, injury or qualifying reason as listed above, an eligible employee is required to request FMLA leave, effective the sixteenth (16<sup>th</sup>) day of absence. In addition, the Board will require an employee to submit certification from a health care provider to substantiate that the leave is due to the serious health condition of the employee or the employee's immediate family member. Failure to comply with these requirements may result in the denial of FMLA leave. The Board will also require that an employee present a certification of fitness to return to work when the absence was caused by the employee's serious health condition. The Board of Education has the right to deny restoration to employment if the employee does not furnish the certificate of fitness.

A notice which explains the FMLA's provisions and provides information concerning the procedures for filing complaints of violations of the FMLA shall be posted in each school building.

Administration is directed to develop regulations to implement this policy, informing employees of their rights and responsibilities under the FMLA.

**Concurrent (Substitute) Leave**

Employees must use paid leave concurrently with periods of FMLA leave.

Family and Medical Leave Act of 1993, Public Law 103-3, 29 Code of Federal Regulations (CFR) Part 825

Adopted: 06/27/07  
Revised: 01/25/12  
Revised: 12/07/16

**SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH**

The Board recognizes the unique challenges that face homeless students and will provide these students with access to the same free, appropriate public education, including public preschool education, as other children and youth and access to educational and other services necessary to be successful in school, and will ensure that they are not separated from the mainstream school environment. The Board is also committed to eliminating barriers to the identification, enrollment, attendance, or success of homeless students.

As defined in Commissioner's Regulations, a "homeless child" means a child or youth who lacks a fixed, regular, and adequate nighttime residence, including a child who is:

- a) Sharing the housing of other persons due to a loss of housing, economic hardship or a similar reason;
- b) Living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations;
- c) Abandoned in hospitals; or
- d) A migratory child who qualifies as homeless in accordance with Commissioner's Regulations. As defined in the No Child Left Behind Act of 2001, the term "migratory child" *includes* a child who is, or whose parent or spouse is, a migratory agricultural worker, including a migratory dairy worker, or a migratory fisher, and who has moved from one school district to another in the preceding 36 months, in order to obtain, or accompanies his or her parent or spouse in order to obtain, temporary or seasonal employment in agricultural or fishing work; or
- e) A child or youth who has a primary nighttime location that is:
  - 1. A supervised, publicly or privately operated shelter designed to provide temporary living accommodations including, but not limited to, shelters operated or approved by the state or local department of social services, and residential programs for runaway and homeless youth established pursuant to Article 19-H of the Executive Law; or
  - 2. A public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings; including a child or youth who is living in a car, park, public space, abandoned building, substandard housing, bus or train station or similar setting.

An "unaccompanied youth" means a homeless child not in the physical custody of a parent or legal guardian. This term does not include a child or youth who is residing with someone other than a parent or legal guardian for the sole reason of taking advantage of the schools of the District.

(Continued)

**SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH (Cont'd.)**

A designator will decide which school district a homeless child or unaccompanied youth will attend. A designator is:

- a) The parent or person in parental relation to a homeless child; or
- b) The homeless child, together with the homeless liaison designated by the District, in the case of an unaccompanied youth; or
- c) The director of a residential program for runaway and homeless youth, in consultation with the homeless child, where the homeless child is living in that program.

The designator may select either the school district of current location, the school district of origin, or a school district participating in a regional placement plan as the district the homeless child will attend. However, the designated school district must determine whether the designation made by the parent, guardian, or youth, in the case of an unaccompanied youth, is consistent with the best interest of the child by considering certain student-centered factors, including factors related to the impact on education and the health and safety of the child or youth.

A homeless child is entitled to attend the school district of origin for the duration of his or her homelessness and also through the remainder of the school year in which he or she locates permanent housing in accordance with his or her best interest.

The term "school district of origin" includes preschool and feeder schools as defined by applicable law.

**Enrollment, Retention and Participation in the Educational Program**

The District will immediately enroll children and youth who are homeless even if the child missed any relevant application or enrollment deadlines during any period of homelessness. The ability of a homeless child or youth to continue or participate in the educational program will similarly not be restricted due to issues such as:

- a) Transportation;
- b) Immunization requirements;
- c) Residency requirements;
- d) Birth certificates, medical records, IEPs, school records and other documentation;
- e) Guardianship issues;
- f) Comprehensive assessment and advocacy referral processes;
- g) Resolution of disputes regarding school selection;

(Continued)

## Students

**SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH (Cont'd.)**

- h) Proof of social security numbers;
- i) Attendance requirements;
- j) Sports participation rules;
- k) Inability to pay fees associated with co-curricular activities such as club dues and sports uniforms; or
- l) Other enrollment issues.

**Educational Programs and Services**

The School District shall provide homeless children and youth with access to all of its programs, activities and services to the same extent that they are provided to resident students.

Homeless children and youth shall be educated as part of the school's regular academic program. Services will be provided to homeless children and youth through programs and mechanisms that integrate homeless children and youth with their non-homeless counterparts, including programs for special education, vocational and technical education, gifted and talented students, before and after school, English language learners/limited English proficiency, Head Start, Even Start, and school nutrition. Services provided with McKinney-Vento funds will expand upon or improve services provided as part of the regular school program. Consequently, the School District shall ensure that homeless children and youth are not segregated in a separate school, or in a separate program within the school, based on their status as homeless; and to the extent feasible consistent with the requirements of Commissioner's Regulations, keep a homeless child or youth in the school of origin except when doing so is contrary to the wishes of the child's or youth's parent or guardian. Further, the School District shall review and revise policies and practices, including transportation guidelines as well as those related to outstanding fees, fines, or absences that may act as barriers to the enrollment, attendance, school success, and retention of homeless children and youth in the School District.

**Transportation**

In order to ensure immediate enrollment, and so as not to create barriers to the attendance, retention, and success of homeless students, transportation must be promptly provided. If the local social service district or the Office of Children and Family Services is not required to provide transportation, the designated district is responsible for provision and the cost of the student's transportation through the remainder of the school year in which the homeless student becomes permanently housed.

Where a homeless student designates the school district of current location as the district the student will attend, that district shall provide transportation to the student on the same basis as a resident student. Where the homeless student designates the school district of origin or a school district participating in a regional placement plan, then that district must provide transportation to and from the homeless child's temporary housing and school not to exceed 50 miles each way unless the Commissioner certifies that the transportation is in the best interests of the child.

(Continued)

**SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH (Cont'd.)**

Transportation is required even if the school of origin is located in another local educational agency (LEA) as long as attendance at the school of origin is in the best interest of the child or youth, even if it requires students to cross district lines. If two school districts are involved, the districts must agree on a method to apportion the cost and responsibility of transportation, or they must split it equally.

Transportation responsibilities apply to all school districts regardless of whether or not they receive McKinney-Vento funds. Transportation must be provided pending final resolution of any enrollment disputes, including any available appeals. If the designated district provides transportation for non-homeless preschool children, it must also provide comparable transportation services for homeless preschool children.

**District Liaison for Homeless Children and Youth**

The School District will designate an appropriate staff person, who may also be a coordinator for other federal programs, as the local educational agency liaison for homeless children and youth to carry out the duties as described in law, Commissioner's Regulations and applicable guidance issued by the U.S. and New York State Education Departments. The District will inform school personnel, local service providers and advocates of the office and duties of the local homeless liaison.

**Training**

All school enrollment staff, secretaries, school counselors, school social workers, and Principals will be trained on the requirements for enrollment of homeless students. Other staff members including school nutrition staff, school registered professional nurses, teachers, and bus drivers will receive training on homelessness that is specific to their field.

**Outreach**

The District will make every effort to inform the parents or guardians of homeless children and youth of the education, transportation and related opportunities available to their children including transportation to the school of origin. The parent(s)/guardian(s) will be assisted in accessing transportation to the school they select, and will be provided with meaningful opportunities to participate in the education of their children. Public notice of educational rights of homeless children and youth will be disseminated by the District in places where families and youth are likely to be present (e.g., schools, shelters, soup kitchens), and in comprehensible formats (e.g., geared for low literacy or other community needs).

**Dispute Resolution**

The District will establish procedures for the prompt resolution of disputes regarding school selection or enrollment of a homeless child or youth and provide a written explanation, including a

(Continued)

**SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH (Cont'd.)**

statement regarding the right to appeal to the parent or guardian if the District sends the student to a school other than the school of origin or the school requested by the parent or guardian. These disputes will include, but are not limited to, disputes regarding transportation and/or a child's or youth's status as a homeless child or unaccompanied youth.

In the event of a dispute regarding eligibility, school selection, or enrollment, the homeless child or youth will be entitled to immediate or continued enrollment and transportation pending final resolution of the dispute, including all available appeals.

**Record and Reporting Requirements**

If the District, as the school district of origin, receives a request to forward student records to a receiving district, the records must be forwarded within five days of receipt of the request.

The District will maintain documentation regarding all aspects of the District's contact with and services provided to homeless students and youth for possible on-site monitoring by the State Education Department.

The District will collect and transmit to the Commissioner of Education, at such time and in the manner as the Commissioner may require, a report containing such information as the Commissioner determines is necessary to assess the educational needs of homeless children and youths within the state.

**Student Privacy**

Any information pertaining to the living situation of a homeless student, such as his or her homeless status or temporary address, is considered a student educational record and is not subject to disclosure as directory information under the Family Educational Rights and Privacy Act (FERPA).
