District Owned Devices

iPads and Chromebooks are district owned devices and the contents on the iPad or Chromebook can be viewed at any time. The student should have NO expectation of privacy of materials found on a school supplied device or school supported email service.

Internet Connectivity

While at school, students will be accessing the Internet through the NCS network, which follows the required Children’s Internet Protection Act (CIPA) regulations. When the device is out of school, it will access any available WiFi and follow the Internet controls associated with that network. We recommend that you talk to your children about the standards they should follow on the Internet just as you would on the use of all media information sources.
